Evaluate only the TA (s) with whom you attended discussion section and/or office hours.

Excellent
Ines was very helpful during discussion and office hours. She worked with me to help me understand cornet I was struggling with and was very patient. During discussion, she is very organized and prepared and open to questions.
María Inés Badin
She was always willing to answer my questions, in a timely and effective way
Ines
I did not
good
María Badin
Maria was great! I could not have done as well in the midterms without her discussion sections and helpful office hours.
Maria Inés Badin
There were many times were the lecture material was dense and complicated but attended sections made it all make much more sense. Thank you for doing a great job in discussions/office hours and making this course much easier and enjoyable.
I had Maria (Ines). She was an incredible TA and deserves the highest regard. She always helped everyone during office hours and discussion sections. She taught her discussion sections very effectively and gave us all tips on passing exams. She went above and beyond her duties, and should be rewarded immediately for her efforts.
She is very responsible.
She was very helpful during discussion sections and went over the problems students go wrong on the midterms
sure~
Disscussions were helpful for exams, so were office hours, extremely generous with time and assistant to students.
María Badin is amazing; a great TA.
She was amazing at explaining the lecture concepts and making sure we really understood what we needed to know. I enjoyed going to her discussions because they were very helpful/ useful.
I think discussions were pretty good and the slides had a lot of useful information. I think discussions really helped me overall. One thing though is that I came late to my discussion about 30 minutes late but she wasn't there in the room anymore but I did find discussions helpful overall.
perfect
Maria Badin
Maria Ines allowed us to answer questions and kept a discussion based section allowing for better comprehension of the material.
The TA was excellent in helping us enhance our understanding of the topics discussed in class. Their explanations were straightforward and made difficult concepts simpler to understand.
Maria Badin is well educated on the subject matter and presented material in a clear and organized manner. She facilitated class engagement and clarified any questions.
Ines

I don't think I actually met this person, unfortunately. I had a scheduling conflict that prevented discussion section attendance.

Na

Ines is amazing, highly knowledgeable great teacher.

Ok

Ines was super helpful and the questions she went over during sections were especially relevant to our midterms. I felt prepared going into exams.

Did not go to discussion session.

Information was presented clearly and gave clarity to what steps needed to be taken to complete assignments.

TA is great, and did a really good job in the discussion. Even there is only me in the last discussion, she still can teach me very well

Great!

She is an enthusiastic teaching assistant

María Badin

While I have not been able to attend every discussion section, María promptly posts the discussion material afterwards. She is also helpful in office hours and does a great job explaining concepts.

Excellent

Maria Badin

I went to both their office hours! (Beau and Inéz)

TA provides a lot of information for the course to make the class much better and easier to understand.

Maria is very enthusiastic when teaching and presents the material in an easy-to-digest manner. Her slides are also very neat and useful.

good

María did a great job as a TA. She would go over homework solutions in discussions and was helpful in explaining the steps to do problems. Always available for questions.

My TA was very attentive and helpful during discussion and office hours.

Very good at explaining the information, wish we could get through more in discussions sometimes since homework is the study guide

the TA was so helpful, very accessible and always trying to help. She was also very knowledgable and made everything so easy to understand. Thanks a lot

I cannot thank Inés enough this quarter. Her office hour sessions helped me complete the written assignments successfully. Moreover, Inés would devise methods that would make it easy for me to understand difficult concepts. I hope everyone is fortunate enough to have a TA like Inés.

Ines was an exceptional TA! She went out of her way to ensure we understood the course material and her way of explaining the content makes so much sense. I greatly appreciated her study guides and discussion sessions.

Very helpful discussion!

During exams, the TA helped a lot with what questions were asking, clearing things up. The professor was smart, communicated well, and gave everyone all the necessary tools to succeed, like recordings, slides, and study guides.

good

Definitely the best TA I have ever met in Davis.

Inés is one of the best TAs I have ever met at UC Davis. She is patient and professional and always tries her best to help students succeed in class. She gives excellent discussion sections with well-organized slides and sample questions that match the difficulties and concepts covered in exams and homework questions. I also appreciate that she grades all the homework and exams timely and offers detailed comments and explanations on points deducted, which is helpful for test preparation.

You are the best! Thank you!

Inés was a wonderful TA! She helped me a lot during the discussion sessions and office hours. She was very approachable in person and through email. She is very dedicated towards teaching and her materials were well organized :)

Professor Singhal was so effective I didn't have need for discussion sections, but the grading of exams and problems sets was fair, accurate, and timely, and therefore from my limited experiences Inez was a very good TA.

This class is more difficult

the TA is holding really detailed discussion section. Also, the office hours are really helpful.

Great TA

As mentioned above, TA was extremely helpful and willing to spend time in Office hours, is clear and knowledgeable.

Overall was very good, sometimes I could tell she was trying to get through a lot of material and would starting speaking very fast or rushing I feel like maybe it would have been more useful to find fewer things and really flush them out rather than a high level review during section

The discussion sections have been helpful in reviewing the hard topics from lectures. Office hours alongside with discussion sections were really helpful for me to review and ask questions to better grasp the topics I learned from lectures.

Her sessions are insightful. She is prompt in helping.

She did great and I will miss going to her discussion sections because she truly made me a better learner in this subject. Thankful she was my TA!

The examples during discussion really helped me prepare for the exams.

I think this class was really good

Prepared questions to help students practice material, interactive discussions, well-crafted presentations, kind TA, explained material clearly and from different perspectives.

They were patient and always ready to respond to questions.
Their assistance in this section greatly strengthened the lecture content and improve my overall understanding of the course.

A useful class, good professor and TAs, and reasonable work load and grading system.

Ines is an amazing TA who has a passion for ECN. She does a great job at explaining hard concepts and understanding from our perspective. Overall, she's been a great help for me this quarter.

Inés was an amazing TA. Always available during designated times and more than happy to help answer questions.

The discussion for this class was what made my understanding in this class more clear. With the 50min we have for the discussion, all the material was covered in depth and I really enjoyed the organization of the slide that you had for the discussion as well as the exam review materials.

Na
Love her! Seriously she’s very smart and her research is so interesting. Every time I have her as a TA I get excited because I know it will be great
Fantastic course - just timing of problem sets was a little tedious.
Excellent
Ines was very helpful during office hours and discussion sections. She would make it engaging in discussion sections and make sure that we understand the material before moving on. If there was any confusion, she would answer our questions and go in depth of why we came to this conclusion for a certain answer. She made this class easier to understand for me and more engaged
None
Very nice and organized TA. Very effective in discussions
Ines is the best TA that I’ve had in Davis. She is very approachable and supportive during discussions and office hours. Whenever I had questions about the course material, she would answer my questions with clarity and makes sure I understand everything. If I didn’t understand it, she would continue explaining it until I did. She’s very caring and kind and cares a lot about her student‘s success. She’s also very passionate about the course material. Overall, the best TA I’ve had in Davis!
The discussions were very helpful for exam prep.
Great!
Great!
Ines is an excellent TA. You could get an A in the course by pretty much only attending her discussion sections. She is concise and clear. One of the, if not the best TA in econ department.
This class was really, really awesome!
I really really love the TA Session, since it is always so clear and logical and help us to rethink the papers we learned in the class. Thank you so much!
Love how she's with us in class, which makes the TA fully aware of the progress and materials from lectures.
The best TA I have had during my economics degree.
The review sheets for before the midterm were very nice to have and the slides were easy to follow, always posted on canvas before the discussion
Inéz is very friendly, patient, and helpful! I wish her office hours weren't so early... but I appreciated that she offered a Zoom option (though I always went in person)
This course is overall amazing and well done.
Maria is a patient Teaching Assistant both during the Discussion Section and the Office Hour, and I hope to have more of her discussion in the future time at the UC Davis.
